‘Practical strategies to assist parents to trust, build and strengthen their relationships with their adolescents’

Effective Parenting is a 6 week program that assists parents to develop skills that will help support their adolescents’ transition into adulthood and bring about positive change.

‘Effective Parenting Program commences the 2nd week of each school term’

The program offers a supportive group environment for parents to connect with other parents with similar experiences who are feeling stressed or in crisis as a result of their adolescents’ behavior.

It gives parents an opportunity to explore parenting styles and concerns in an informal atmosphere. Parents discuss issues and set goals based on the advice and the experience of the group and facilitators.
